City of West St. Paul
Public Safety Committee
February 4, 2020

In attendance:

Chair Fernandez
Member Berry
Member Eng-Sarne (left the meeting around 7:45)
City Manager Ryan Schroeder
City Engineer/PW Director Ross Beckwith
Community Development Director Jim Hartshorn
Police Lieutenant Matt Swenke

1. The Chair called the meeting to order at 7:00 AM
2. The Chair asked for approval of minutes from December 3, 2019. Motion by Berry, second by Eng-Sarne. All voted aye.
3. The Chair opened the first New Business item of Crosswalk signage/striping/pedestrian walkway gaps. After discussion the consensus of the committee was:
 - Place a priority on Emerson from Charlton to Robert
 - Place a priority on park and school locations (walkways near these facilities)
 - Place a priority on Smith Avenue south of Moreland
 - Review Metro Bus routes and ensure there are walkways adjacent to these routes
 - Ensure that any gaps adjacent to Signal Hills are addressed concurrent with development
 - Budget for ped ramps at Charlton/Butler near Heritage and Harmon Park
 - Budget for a crossing from Garlough to Dodge Nature Center
 - Budget for ped ramps/crossing across Thompson at Carrie or concurrent with development or roadway project
 - Proceed with a Regional Solicitation application for Thompson/Oakdale corridor which is currently in a feasibility study
 - Existing sidewalks gaps are not immediate priority unless they fall under school/park access.
4. The Chair opened discussion for no parking restrictions at Kathleen/Westview. Consensus was to take the recommendation to limit parking due to turning obstructions of Fire apparatus and other large vehicles on Kathleen Drive from Marie Avenue to Westview Drive. Engineering staff will review in the field and make a recommendation whether it is just the stretch closest to Marie that should be posted No Parking or the entire length (of south side) from Marie to Westview Drive.
5. The Chair opened discussion on traffic calming on Carrie Street that had been received from resident testimony during the Oppidan/Thompson Oaks site plan discussions. Staff presented that traffic volumes on Carrie were extremely low and would not be expected to change significantly post nearby commercial and multi-family development. The committee concluded that further discussion could occur after completion of these

developments and improvements to the Thompson Oakdale roundabout projected in 2022. However, the committee did make the recommendation for a pedestrian crossing of Thompson at Carrie.

6. The Chair opened discussion on the proposed housing rehab program. Consensus of the group is that we create a 1-3 year Pilot program targeting the area bounded by Annapolis, Robert, Butler and Waterloo. It was acknowledged that this district is entirely within Ward 1 but that it is also the area of perceived most concentrated need and that targeting this area during the Pilot program would be most likely to have a visible impact. Further, that the program would be expected to see expansion in the future as additional resources and experience occur. Additional recommendations include:
 - Focus on single family homesteads only
 - Do not have a homestead market value cap
 - Limit eligible homesteads to those between 80% and 120% AMI given that the CDBG rehab program currently operated by the Dakota CDA targets below 80%
 - Improvements eligible for loans would be code deficiencies, exterior structure improvements, and system improvements (HVAC, electrical, plumbing)
 - Interest rate at 3.5% (loan term was not discussed)
 - Charge borrower a \$150 application fee with the caveat that the application fee would be returned if the borrower is not approved for a loan
 - Loan minimum is \$5,000 and maximum is \$15,000 due to funding limits
 - Contract with NeighborWorks should limit the amount of administrative duties and expense to NeighborWorks
7. The Chair opened the discussion on the Committee scope. By consensus the committee agreed with the proposed scope of:
 - Street and sidewalk/pedestrian project reviews
 - Neighborhood scale traffic calming/signage request reviews and policy
 - Code enforcement/rental housing/problem properties
 - Review of public safety neighborhood hot spot issues
8. The Chair brought forward a few additional items for future discussion either at this committee or other committee/OCWS discussion
 - Status of 1010 Dodd (staff will follow up with a response)
 - Request for review of the rental density ordinance
 - Request for discussion about allowing for accessory apartments
9. The Chair adjourned the meeting at 8:33 AM

Submitted,

Ryan Schroeder

To: **Public Safety Committee**
Through: **Ryan Schroeder, City Manager**
From: **Brian Sturgeon, Chief of Police**
Date: **June 16, 2020**

Use of Force Policy Review

BACKGROUND INFORMATION:

In your packet for today's discussion surrounding the Police Department's Use of Force Policy are the following:

- Department's Use of Force policy.
- Department's Use of Force policy with labels that identify areas of mandated content.
- State of Minnesota's Use of Force model policy.

In addition to our discussion of this policy, there is pending legislation at both the federal and state level that may require future changes in our policies.

Answers to questions raised in relation to this policy can be found within the packet of information that has been included:

- Historical training budget.
- Call for service history per officer.
- Required Training for 2019 and 2020.

The vast amount of information pertaining to the documents provided, is far too great to cover in this memo. I can provide the extensive details as needed during our discussions today and in the future.

Policies and policy enforcement is essential, but getting to the core issues surrounding race, equality, and the fair treatment of all persons has many aspects associated with it. This includes, but not limited to:

- Hiring the right candidates for our community. Those individuals must have integrity, ethics, and proper morals.
- Ongoing training as expectations change, legislative mandates, and changes in technology emerge.
- Community outreach and education.
- Understanding from all stakeholders that the needs, expectations, and values can be and are different in our community versus other cities.

FISCAL IMPACT:

Use of Force

300.1 PURPOSE AND SCOPE

This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every member of this department is expected to use these guidelines to make such decisions in a professional, impartial and reasonable manner.

300.1.1 DEFINITIONS

Definitions related to this policy include:

Deadly force - Force reasonably anticipated and intended to create a substantial likelihood of causing death or great bodily harm.

Force - The application of physical techniques or tactics, chemical agents or weapons to another person. It is not a use of force when a person allows him/herself to be searched, escorted, handcuffed or restrained.

300.2 POLICY

The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. Officers are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Officers must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

The Department recognizes and respects the value of all human life and dignity without prejudice to anyone. Vesting officers with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation and a careful balancing of all interests.

300.2.1 DUTY TO INTERCEDE

Any officer present and observing another officer using force that is clearly beyond that which is objectively reasonable under the circumstances shall, when in a position to do so, intercede to prevent the use of unreasonable force. An officer who observes another employee use force that exceeds the degree of force permitted by law should promptly report these observations to a supervisor.

300.3 USE OF FORCE

Officers shall use only that amount of force that reasonably appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose.

The reasonableness of force will be judged from the perspective of a reasonable officer on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that officers are often forced to make split-second decisions about the amount of force that reasonably

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain and rapidly evolving.

Given that no policy can realistically predict every possible situation an officer might encounter, officers are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident.

It is also recognized that circumstances may arise in which officers reasonably believe that it would be impractical or ineffective to use any of the tools, weapons or methods provided by the Department. Officers may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.

While the ultimate objective of every law enforcement encounter is to avoid or minimize injury, nothing in this policy requires an officer to retreat or be exposed to possible physical injury before applying reasonable force.

300.3.1 USE OF FORCE TO EFFECT AN ARREST

An officer may use reasonable force (Minn. Stat. § 609.06 and Minn. Stat. § 629.33):

- (a) In effecting a lawful arrest.
- (b) In the execution of a legal process.
- (c) In enforcing an order of the court.
- (d) In executing any other duty imposed by law.
- (e) In preventing the escape, or to retake following the escape, of a person lawfully held on a charge or conviction of a crime.
- (f) In restraining a person with a mental illness or a person with a developmental disability from self-injury or injury to another.
- (g) In self defense or defense of another.

An officer who makes or attempts to make an arrest need not retreat or desist from his/her efforts by reason of resistance or threatened resistance of the person being arrested; nor shall such officer be deemed the aggressor or lose his/her right to self-defense by the use of reasonable force to effect the arrest or to prevent escape or to overcome resistance.

300.3.2 FACTORS USED TO DETERMINE THE REASONABLENESS OF FORCE

When determining whether to apply force and evaluating whether an officer has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit. These factors include, but are not limited to:

- (a) Immediacy and severity of the threat to officers or others.

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

- (b) The conduct of the individual being confronted, as reasonably perceived by the officer at the time.
- (c) Officer/subject factors (age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of officers available vs. subjects).
- (d) The effects of drugs or alcohol.
- (e) Subject's mental state or capacity.
- (f) Proximity of weapons or dangerous improvised devices.
- (g) The degree to which the subject has been effectively restrained and his/her ability to resist despite being restrained.
- (h) The availability of other options and their possible effectiveness.
- (i) Seriousness of the suspected offense or reason for contact with the individual.
- (j) Training and experience of the officer.
- (k) Potential for injury to officers, suspects and others.
- (l) Whether the person appears to be resisting, attempting to evade arrest by flight or is attacking the officer.
- (m) The risk and reasonably foreseeable consequences of escape.
- (n) The apparent need for immediate control of the subject or a prompt resolution of the situation.
- (o) Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or others.
- (p) Prior contacts with the subject or awareness of any propensity for violence.
- (q) Any other exigent circumstances.

300.3.3 PAIN COMPLIANCE TECHNIQUES

Pain compliance techniques may be effective in controlling a physically or actively resisting individual. Officers may only apply those pain compliance techniques for which they have successfully completed department-approved training. Officers utilizing any pain compliance technique should consider:

- (a) The degree to which the application of the technique may be controlled given the level of resistance.
- (b) Whether the person can comply with the direction or orders of the officer.
- (c) Whether the person has been given sufficient opportunity to comply.

The application of any pain compliance technique shall be discontinued once the officer determines that compliance has been achieved.

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

300.3.4 USE OF FORCE TO SEIZE EVIDENCE

In general, officers may use reasonable force to lawfully seize evidence and to prevent the destruction of evidence. However, officers are discouraged from using force solely to prevent a person from swallowing evidence or contraband. In the instance when force is used, officers should not intentionally use any technique that restricts blood flow to the head, restricts respiration or which creates a reasonable likelihood that blood flow to the head or respiration would be restricted. Officers are encouraged to use techniques and methods taught by the West St. Paul Police Department for this specific purpose.

300.4 DEADLY FORCE

Use of deadly force is justified in the following circumstances:

- (a) An officer may use deadly force to protect him/herself or others from what he/she reasonably believes would be an imminent threat of death or serious bodily injury.
- (b) An officer may use deadly force to stop a fleeing subject when the officer has probable cause to believe that the person has committed, or intends to commit, a felony involving the infliction or threatened infliction of serious bodily injury or death, and the officer reasonably believes that there is an imminent risk of serious bodily injury or death to any other person if the subject is not immediately apprehended. Under such circumstances, a verbal warning should precede the use of deadly force, where feasible.

Imminent does not mean immediate or instantaneous. An imminent danger may exist even if the suspect is not at that very moment pointing a weapon at someone. For example, an imminent danger may exist if an officer reasonably believes any of the following:

1. The person has a weapon or is attempting to access one and it is reasonable to believe the person intends to use it against the officer or another.
2. The person is capable of causing serious bodily injury or death without a weapon and it is reasonable to believe the person intends to do so.

300.4.1 SHOOTING AT OR FROM MOVING VEHICLES

Shots fired at or from a moving vehicle are rarely effective. Officers should move out of the path of an approaching vehicle instead of discharging their firearm at the vehicle or any of its occupants. An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others.

Officers should not shoot at any part of a vehicle in an attempt to disable the vehicle.

300.5 REPORTING THE USE OF FORCE

Any use of force by a member of this department shall be documented promptly, completely and accurately in an appropriate report, depending on the nature of the incident. The officer should

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

articulate the factors perceived and why he/she believed the use of force was reasonable under the circumstances. To collect data for purposes of training, resource allocation, analysis and related purposes, the Department may require the completion of additional report forms, as specified in department policy, procedure or law.

300.5.1 NOTIFICATION TO SUPERVISORS

Supervisory notification shall be made as soon as practicable following the application of force in any of the following circumstances:

- (a) The application caused a visible injury.
- (b) The application would lead a reasonable officer to conclude that the individual may have experienced more than momentary discomfort.
- (c) The individual subjected to the force complained of injury or continuing pain.
- (d) The individual indicates intent to pursue litigation.
- (e) Any application of an TASER® or control device.
- (f) Any application of a restraint device other than handcuffs, shackles or belly chains.
- (g) The individual subjected to the force was rendered unconscious.
- (h) An individual was struck or kicked.
- (i) An individual alleges any of the above has occurred.

300.6 MEDICAL CONSIDERATION

Prior to booking or release, medical assistance shall be obtained for any person who exhibits signs of physical distress, who has sustained visible injury, expresses a complaint of injury or continuing pain, or who was rendered unconscious. Any individual exhibiting signs of physical distress after an encounter should be continuously monitored until he/she can be medically assessed.

Based upon the officer's initial assessment of the nature and extent of the subject's injuries, medical assistance may consist of examination by fire personnel, paramedics, hospital staff or medical staff at the jail. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practicable, should be witnessed by another officer and/or medical personnel. If a recording is made of the contact or an interview with the individual, any refusal should be included in the recording, if possible.

The on-scene supervisor or, if the on-scene supervisor is not available, the primary handling officer shall ensure that any person providing medical care or receiving custody of a person following any use of force is informed that the person was subjected to force. This notification shall include a description of the force used and any other circumstances the officer reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

Persons who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics and imperviousness to pain (sometimes called “excited delirium”), or who require a protracted physical encounter with multiple officers to be brought under control, may be at an increased risk of sudden death. Calls involving these persons should be considered medical emergencies. Officers who reasonably suspect a medical emergency should request medical assistance as soon as practicable and have medical personnel stage away if appropriate.

300.7 SUPERVISOR RESPONSIBILITY

When a supervisor is able to respond to an incident in which there has been a reported application of force, the supervisor is expected to:

- (a) Obtain the basic facts from the involved officers. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.
- (b) Ensure that any injured parties are examined and treated.
- (c) If the subject of the force or another witness to the force claims misconduct or excessive force by the officer(s), separately obtain a recorded interview with the subject upon whom force was applied and any witnesses to the force. The fact that a recorded interview was conducted should be documented in a report and the recording should be retained until all potential for civil litigation has expired.
- (d) If a statement was obtained in "c" above, notification shall be made to the department's administrative staff. Depending on the severity of the claim/injury and the potential delay in informing an administrator, notification may range from an e-mail to an immediate telephone call.
- (e) Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible injury or complaint of pain, as well as overall photographs of uninjured areas. These photographs should be retained until all potential for civil litigation has expired.
- (f) Identify any witnesses not already included in related reports.
- (g) Review and approve all related reports.
- (h) Determine if there is any indication that the subject may pursue civil litigation.
 1. If there is an indication of potential civil litigation, the supervisor should complete and route a notification of a potential claim through the appropriate channels.
- (i) Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy non-compliance or if for any reason further investigation may be appropriate.

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

In the event that a supervisor is unable to respond to the scene of an incident involving the reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

300.7.1 SHIFT SERGEANT RESPONSIBILITY

The Shift Sergeant shall review each use of force by any personnel within his/her command to ensure compliance with this policy and to address any training issues.

300.8 TRAINING

Officers will receive training on this policy, including the learning objectives as provided by POST, at least annually (Minn. Stat. § 626.8452, Subd. 3).

300.9 USE OF FORCE ANALYSIS

At least annually, the Operations Division Commander should prepare an analysis report on use of force incidents. The report should be submitted to the Chief of Police. The report should not contain the names of officers, suspects or case numbers, and should include:

- (a) The identification of any trends in the use of force by members.
- (b) Training needs recommendations.
- (c) Equipment needs recommendations.
- (d) Policy revision recommendations.

Use of Force

300.1 PURPOSE AND SCOPE

Best Practice

This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every member of this department is expected to use these guidelines to make such decisions in a professional, impartial and reasonable manner.

300.1.1 DEFINITIONS

Federal MODIFIED

Definitions related to this policy include:

Deadly force - Force reasonably anticipated and intended to create a substantial likelihood of causing death or great bodily harm.

Force - The application of physical techniques or tactics, chemical agents or weapons to another person. It is not a use of force when a person allows him/herself to be searched, escorted, handcuffed or restrained.

300.2 POLICY

Best Practice

The use of force by law enforcement personnel is a matter of critical concern, both to the public and to the law enforcement community. Officers are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Officers must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of law enforcement duties.

The Department recognizes and respects the value of all human life and dignity without prejudice to anyone. Vesting officers with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation and a careful balancing of all interests.

300.2.1 DUTY TO INTERCEDE

Federal

Any officer present and observing another officer using force that is clearly beyond that which is objectively reasonable under the circumstances shall, when in a position to do so, intercede to prevent the use of unreasonable force. An officer who observes another employee use force that exceeds the degree of force permitted by law should promptly report these observations to a supervisor.

300.3 USE OF FORCE

Federal

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

Officers shall use only that amount of force that reasonably appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose.

The reasonableness of force will be judged from the perspective of a reasonable officer on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that officers are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain and rapidly evolving.

Given that no policy can realistically predict every possible situation an officer might encounter, officers are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident.

It is also recognized that circumstances may arise in which officers reasonably believe that it would be impractical or ineffective to use any of the tools, weapons or methods provided by the Department. Officers may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.

While the ultimate objective of every law enforcement encounter is to avoid or minimize injury, nothing in this policy requires an officer to retreat or be exposed to possible physical injury before applying reasonable force.

300.3.1 USE OF FORCE TO EFFECT AN ARREST

State

An officer may use reasonable force (Minn. Stat. § 609.06 and Minn. Stat. § 629.33):

- (a) In effecting a lawful arrest.
- (b) In the execution of a legal process.
- (c) In enforcing an order of the court.
- (d) In executing any other duty imposed by law.
- (e) In preventing the escape, or to retake following the escape, of a person lawfully held on a charge or conviction of a crime.
- (f) In restraining a person with a mental illness or a person with a developmental disability from self-injury or injury to another.
- (g) In self defense or defense of another.

An officer who makes or attempts to make an arrest need not retreat or desist from his/her efforts by reason of resistance or threatened resistance of the person being arrested; nor shall such officer be deemed the aggressor or lose his/her right to self-defense by the use of reasonable force to effect the arrest or to prevent escape or to overcome resistance.

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

300.3.2 FACTORS USED TO DETERMINE THE REASONABLENESS OF FORCE

Federal

When determining whether to apply force and evaluating whether an officer has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit. These factors include, but are not limited to:

- (a) Immediacy and severity of the threat to officers or others.
- (b) The conduct of the individual being confronted, as reasonably perceived by the officer at the time.
- (c) Officer/subject factors (age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of officers available vs. subjects).
- (d) The effects of drugs or alcohol.
- (e) Subject's mental state or capacity.
- (f) Proximity of weapons or dangerous improvised devices.
- (g) The degree to which the subject has been effectively restrained and his/her ability to resist despite being restrained.
- (h) The availability of other options and their possible effectiveness.
- (i) Seriousness of the suspected offense or reason for contact with the individual.
- (j) Training and experience of the officer.
- (k) Potential for injury to officers, suspects and others.
- (l) Whether the person appears to be resisting, attempting to evade arrest by flight or is attacking the officer.
- (m) The risk and reasonably foreseeable consequences of escape.
- (n) The apparent need for immediate control of the subject or a prompt resolution of the situation.
- (o) Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the officer or others.
- (p) Prior contacts with the subject or awareness of any propensity for violence.
- (q) Any other exigent circumstances.

300.3.3 PAIN COMPLIANCE TECHNIQUES

Best Practice

Pain compliance techniques may be effective in controlling a physically or actively resisting individual. Officers may only apply those pain compliance techniques for which they have successfully completed department-approved training. Officers utilizing any pain compliance technique should consider:

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

- (a) The degree to which the application of the technique may be controlled given the level of resistance.
- (b) Whether the person can comply with the direction or orders of the officer.
- (c) Whether the person has been given sufficient opportunity to comply.

The application of any pain compliance technique shall be discontinued once the officer determines that compliance has been achieved.

300.3.4 USE OF FORCE TO SEIZE EVIDENCE

Best Practice

In general, officers may use reasonable force to lawfully seize evidence and to prevent the destruction of evidence. However, officers are discouraged from using force solely to prevent a person from swallowing evidence or contraband. In the instance when force is used, officers should not intentionally use any technique that restricts blood flow to the head, restricts respiration or which creates a reasonable likelihood that blood flow to the head or respiration would be restricted. Officers are encouraged to use techniques and methods taught by the West St. Paul Police Department for this specific purpose.

300.4 DEADLY FORCE

Federal

Use of deadly force is justified in the following circumstances:

- (a) An officer may use deadly force to protect him/herself or others from what he/she reasonably believes would be an imminent threat of death or serious bodily injury.
- (b) An officer may use deadly force to stop a fleeing subject when the officer has probable cause to believe that the person has committed, or intends to commit, a felony involving the infliction or threatened infliction of serious bodily injury or death, and the officer reasonably believes that there is an imminent risk of serious bodily injury or death to any other person if the subject is not immediately apprehended. Under such circumstances, a verbal warning should precede the use of deadly force, where feasible.

Imminent does not mean immediate or instantaneous. An imminent danger may exist even if the suspect is not at that very moment pointing a weapon at someone. For example, an imminent danger may exist if an officer reasonably believes any of the following:

1. The person has a weapon or is attempting to access one and it is reasonable to believe the person intends to use it against the officer or another.
2. The person is capable of causing serious bodily injury or death without a weapon and it is reasonable to believe the person intends to do so.

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

300.4.1 SHOOTING AT OR FROM MOVING VEHICLES

Best Practice

Shots fired at or from a moving vehicle are rarely effective. Officers should move out of the path of an approaching vehicle instead of discharging their firearm at the vehicle or any of its occupants. An officer should only discharge a firearm at a moving vehicle or its occupants when the officer reasonably believes there are no other reasonable means available to avert the threat of the vehicle, or if deadly force other than the vehicle is directed at the officer or others.

Officers should not shoot at any part of a vehicle in an attempt to disable the vehicle.

300.5 REPORTING THE USE OF FORCE

Best Practice

Any use of force by a member of this department shall be documented promptly, completely and accurately in an appropriate report, depending on the nature of the incident. The officer should articulate the factors perceived and why he/she believed the use of force was reasonable under the circumstances. To collect data for purposes of training, resource allocation, analysis and related purposes, the Department may require the completion of additional report forms, as specified in department policy, procedure or law.

300.5.1 NOTIFICATION TO SUPERVISORS

Best Practice

Supervisory notification shall be made as soon as practicable following the application of force in any of the following circumstances:

- (a) The application caused a visible injury.
- (b) The application would lead a reasonable officer to conclude that the individual may have experienced more than momentary discomfort.
- (c) The individual subjected to the force complained of injury or continuing pain.
- (d) The individual indicates intent to pursue litigation.
- (e) Any application of an TASER® or control device.
- (f) Any application of a restraint device other than handcuffs, shackles or belly chains.
- (g) The individual subjected to the force was rendered unconscious.
- (h) An individual was struck or kicked.
- (i) An individual alleges any of the above has occurred.

300.6 MEDICAL CONSIDERATION

Best Practice

Prior to booking or release, medical assistance shall be obtained for any person who exhibits signs of physical distress, who has sustained visible injury, expresses a complaint of injury or continuing pain, or who was rendered unconscious. Any individual exhibiting signs of physical distress after an encounter should be continuously monitored until he/she can be medically assessed.

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

Based upon the officer's initial assessment of the nature and extent of the subject's injuries, medical assistance may consist of examination by fire personnel, paramedics, hospital staff or medical staff at the jail. If any such individual refuses medical attention, such a refusal shall be fully documented in related reports and, whenever practicable, should be witnessed by another officer and/or medical personnel. If a recording is made of the contact or an interview with the individual, any refusal should be included in the recording, if possible.

The on-scene supervisor or, if the on-scene supervisor is not available, the primary handling officer shall ensure that any person providing medical care or receiving custody of a person following any use of force is informed that the person was subjected to force. This notification shall include a description of the force used and any other circumstances the officer reasonably believes would be potential safety or medical risks to the subject (e.g., prolonged struggle, extreme agitation, impaired respiration).

Persons who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics and imperviousness to pain (sometimes called "excited delirium"), or who require a protracted physical encounter with multiple officers to be brought under control, may be at an increased risk of sudden death. Calls involving these persons should be considered medical emergencies. Officers who reasonably suspect a medical emergency should request medical assistance as soon as practicable and have medical personnel stage away if appropriate.

300.7 SUPERVISOR RESPONSIBILITY

Best Practice **MODIFIED**

When a supervisor is able to respond to an incident in which there has been a reported application of force, the supervisor is expected to:

- (a) Obtain the basic facts from the involved officers. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.
- (b) Ensure that any injured parties are examined and treated.
- (c) If the subject of the force or another witness to the force claims misconduct or excessive force by the officer(s), separately obtain a recorded interview with the subject upon whom force was applied and any witnesses to the force. The fact that a recorded interview was conducted should be documented in a report and the recording should be retained until all potential for civil litigation has expired.
- (d) If a statement was obtained in "c" above, notification shall be made to the department's administrative staff. Depending on the severity of the claim/injury and the potential delay in informing an administrator, notification may range from an e-mail to an immediate telephone call.
- (e) Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible

West St. Paul Police Department

West Saint Paul PD Policy Manual

Use of Force

injury or complaint of pain, as well as overall photographs of uninjured areas. These photographs should be retained until all potential for civil litigation has expired.

- (f) Identify any witnesses not already included in related reports.
- (g) Review and approve all related reports.
- (h) Determine if there is any indication that the subject may pursue civil litigation.
 - 1. If there is an indication of potential civil litigation, the supervisor should complete and route a notification of a potential claim through the appropriate channels.
- (i) Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy non-compliance or if for any reason further investigation may be appropriate.

In the event that a supervisor is unable to respond to the scene of an incident involving the reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

300.7.1 SHIFT SERGEANT RESPONSIBILITY

Best Practice

The Shift Sergeant shall review each use of force by any personnel within his/her command to ensure compliance with this policy and to address any training issues.

300.8 TRAINING

Best Practice

Officers will receive training on this policy, including the learning objectives as provided by POST, at least annually (Minn. Stat. § 626.8452, Subd. 3).

300.9 USE OF FORCE ANALYSIS

Best Practice

At least annually, the Operations Division Commander should prepare an analysis report on use of force incidents. The report should be submitted to the Chief of Police. The report should not contain the names of officers, suspects or case numbers, and should include:

- (a) The identification of any trends in the use of force by members.
- (b) Training needs recommendations.
- (c) Equipment needs recommendations.
- (d) Policy revision recommendations.

USE OF FORCE AND DEADLY FORCE MODEL POLICY
MN STAT 626.8452

I. POLICY

It is the policy of the (law enforcement agency) to provide officers with guidelines for the use of force and deadly force in accordance with:

MN STAT 626.8452 DEADLY FORCE AND FIREARMS USE; POLICIES AND INSTRUCTION REQUIRED;
MN STAT 609.06 AUTHORIZED USE OF FORCE;
MN STAT 609.065 JUSTIFIABLE TAKING OF LIFE; and
MN STAT 609.066 AUTHORIZED USE OF FORCE BY PEACE OFFICERS.

This policy applies to all peace officers and part-time peace officers engaged in the discharge of official duties.

II. DEFINITIONS

- A. *Bodily Harm*:** means physical pain or injury.
- B. *Great Bodily Harm*:** bodily injury which creates a high probability of death, or which causes serious, permanent disfigurement, or which causes a permanent or protracted loss or impairment of the function of any bodily member or organ or other serious bodily harm.
- C. *Deadly Force*:** force used by an officer that the officer knows, or reasonably should know, creates a substantial risk of causing death or great bodily harm. The intentional discharge of a firearm in the direction of another person, or at a vehicle in which another person is believed to be, constitutes deadly force.
- D. *Other Than Deadly Force*:** force used by an officer that does not have the purpose of causing, nor create a substantial risk of causing, death or great bodily harm.
- E. *Authorized Device*:** a device an officer has received permission from the agency to carry and use in the discharge of that officer's duties, and for which the officer has:
- obtained training in the technical, mechanical and physical aspects of the device; and
 - developed a knowledge and understanding of the law, rules and regulations regarding the use of such a device.

III. PROCEDURE

A. Force Considerations

In determining what force is reasonable under the circumstances, an officer should consider:

- the severity of the crime at issue;
- whether the suspect poses an immediate threat to the safety of the officer or others;
- whether the suspect is actively resisting arrest or attempting to evade arrest by flight; and
- other relevant information the officer reasonably believes to be true at the time.

B. Use of Deadly Force

It is the policy of this agency to accord officers discretion in the use of force to the extent permitted by Minnesota Statute. An officer is authorized to use deadly force only when the officer perceives it is necessary given the circumstances known to the officer at the time in order to:

1. protect the officer or another from apparent death or great bodily harm;
2. effect the arrest or capture, or prevent the escape, of a person whom the officer knows or has reasonable grounds to believe has committed or attempted to commit a felony
 - involving the use or threatened use of deadly force; or
 - if the officer believes that the person will cause death or great bodily harm if the person's apprehension is delayed.

If feasible, an officer should give a verbal warning before using or attempting to use deadly force.

C. Use of Other Than Deadly Force

It is the policy of this agency to accord officers discretion in the use of other than deadly force to the extent permitted by Minnesota Statute. An officer is authorized to use reasonable force when the officer perceives it is necessary given the circumstances known to the officer at the time in:

- effecting a lawful arrest; or
- the execution of legal process; or
- enforcing an order of the court; or
- executing any other duty imposed upon the public officer by law; or
- defense of self or another.

D. General Rules Governing Use of Force

1. Before carrying a firearm all officers shall receive training and instruction with regard to the proper use of deadly force and to the agency's policies and State statutes with regard to such force. Such training and instruction shall continue on an annual basis.
2. Before carrying an authorized device all officers shall receive training and instruction in the use of the device including training as it relates to its use in deadly force and/or other than deadly force situations. Such training and instruction shall continue on an annual basis.

3. Officers will carry and use only authorized devices unless circumstances exist which pose an immediate threat to the safety of the officer or the public requiring the use of a device or object that has not been authorized to counter such a threat.
4. With agency approval officers may modify, alter or cause to be altered an authorized device in his or her possession or control.
5. Protracted force encounters jeopardize the safety of the public, law enforcement personnel and the person being arrested or captured. Accordingly, an officer should use discretion to determine reasonable force options to bring a subject under control. This policy should not be construed to require officers to first attempt using types and degrees of force that reasonably appear to be inadequate to accomplish the intended objective.
6. An officer may announce their intention to use reasonable force.

E. Recordkeeping Requirements

The chief law enforcement officer will maintain records of the agency's compliance with use of force training requirements.
