130.21 Third Party Gift Card Procurement

A. Purpose. The fraudulent procurement of third party gift cards at retail establishments in the city has become a widespread problem. These incidents affect numerous victims and require considerable law enforcement resources to investigate. By adopting these provisions, the City Council desires to protect the health, safety, and welfare of all persons living in the city, visiting the city, and operating businesses within the city by deterring the fraudulent procurement of third party gift cards at retail establishments and conserving the limited amount of time, energy, and resources available to local law enforcement agencies when investigating said behavior.

B. Findings. The City Council finds that:

1. There has been a substantial increase in the fraudulent procurement of third party gift cards at retail establishments within the city. Third party gift cards are oftentimes purchased by individuals through the use of cloned or stolen financial transaction cards, counterfeit checks, or through other fraudulent means.

2. Due to the complex nature of cases involving fraudulent third party gift card procurement, local law enforcement agencies have exerted a significant amount of time and energy into investigating these cases. These investigations are particularly time-consuming and involve numerous victims, resulting in a strain on the limited amount of resources that are otherwise available to local law enforcement.

3. Requiring retail establishments to verify identification at the point of sale is an effective way to deter criminal behavior.

4. This section is adopted pursuant to Minnesota Statute 412.221, subd. 32 and the city's inherent regulatory authority. The provisions contained herein are reasonably related to promoting the general welfare of the community and other legitimate police-power objectives, both expressly identified herein and otherwise implied.
