Action	
Approve the final reading on an ordinance amendment to City Code section 71.04 regulating the parking of trucks and commercial vehicles on roadways.	
Background	
<p>Tonight is the final reading amending City Code 7104. It reduces the the commercial vehicle weight limit on vehicles parked on residential roadways from 12,000 pounds gross vehicle weight (G.V.W) to 9,000 pounds.</p> <p>Over the past couple of years staff and council members have received complaints regarding larger commercial-use vehicles parked on residential streets throughout the city for extended periods of time and days.</p> <p>We can enforce overtime parking under a couple of different ordinances including the 48 hours parking limitation. However, a person responsible for the motor vehicle can move the vehicle one foot and then be allowed to continue to park in the spot for another 48 hours. This has been taken advantage of.</p> <p>Staff presented this issue to the Public Safety Committee on April 6, 2022 and after discussion it was agreed upon to present this language change to the City Council. On April 25, 2022 this topic was discussed at the OCWS. Staff heard from council members to move forward on an ordinance change and the first reading and public hearing was completed at the council meeting on July 25, 2022. During the public hearing there was no one that provided testimony against the changes.</p>
